

Program Committee:

Dr. Andrea Hunter (Conference Co-Chair)
Dr. Gita Wahi (Conference Co-Chair)
Dr. Moyez Ladhani
Dr. Bosco Paes
Rosy Evered (Conference Assistant)

CanMEDS OBJECTIVES:

Medical Expert:

- Improve your diagnostic skills & approach to infants with gastrointestinal pathology.
- Review the current evidence related to pediatric ophthalmology common conditions & management
- Review an approach to challenging fluids & electrolyte management in children
- Improve skills in management of children with complex, chronic conditions
- Review the diagnostic possibilities of a child presenting with wheeze.
- Evaluate knowledge & management skills in acute pediatric setting including quality improvement principles & inter-facility transport
- Evaluate your skills in skin conditions & visual "spot" diagnosis
- Examine new trends in pediatric urology conditions, with an evidence based approach to management

Collaborator:

- The conference will allow participants to collaborate with other members in the LHIN 3 & 4 areas & subspecialties
- An update will be provided on new happenings in our LHINs, and at McMaster Children's Hospital

Scholar:

To critically evaluate information & new advances, and discuss cases in a collegial and open forum

Format:

The presentations will occur in a step-by-step fashion, with audience participation. Each will be followed by a brief "take home message". The audience must solve all cases presented. The format is informal and meant to draw on the collective expertise of the participants.

Credits:

This event is an accredited group learning activity under Section 1 of the Maintenance of Certification (MOC) Program of the Royal College of Physicians & Surgeons of Canada and approved by the Canadian Pediatric Society.
