

Program Committee:

Dr. Andrea Hunter (Conference Co-Chair)
Dr. Gita Wahi (Conference Co-Chair)
Dr. Moez Ladhani
Dr. Bosco Paes
Rosy Evered (Conference Assistant)

CanMEDS OBJECTIVES:

Medical Expert:

-Review unique causes of acute renal failure in children/youth and management principles
-Evaluate differential diagnosis of Horner's syndrome in pediatric population. -Review a few 'habit' presentations in pediatrics with their differential diagnoses. -Improve your diagnostic and management approach to children with Raynaud phenomenon. -Review an approach to common pediatric vascular malformations and updates on new treatment modalities
-Review of unique presentations of toxidromes in infants and young children. -Evaluate unique clinical presentations and diagnostic considerations of parathyroid disorders. -Review diagnostic challenges in complex pediatric mental health patients with co-morbidities
-Evaluate diagnostic overlay of unusual skin conditions and pediatric infectious diseases
-Evaluate your skills in skin conditions & visual "spot" diagnosis

Collaborator:

- The conference will allow participants to collaborate with other members in the LHIN 3 & 4 areas and subspecialists.— An update will be provided on new happenings in our LHIN, and at McMaster Children's Hospital

Scholar:

- To critically evaluate information & new advances, and discuss cases in a collegial and open forum

Format:

The presentations will occur in a step-by-step fashion, with audience participation. Each will be followed by a brief "take home message". The audience must solve all cases presented. The format is informal and meant to draw on the collective expertise of the participants.

Credits:

This event is an accredited group learning activity under Section 1 of the Maintenance of Certification (MOC) Program of the Royal College of
