The 20th Annual Practical Pediatrics Conference

April 8, 2020

THEME: BETTER TOGETHER

This year's topics have been selected as relevant to academic general pediatricians in our region. We hope to showcase commonalities as well as recognize circumstances unique to the various centers. Real-life case presentations from our partners will be presented along with expert collaborations from McMaster Children's Hospital. Suggestions for adoption and implementation at the regional sites will be highlighted.

FORMAT

The day will be comprised of formal presentations interspersed with shorter Spot Diagnosis cases to enhance clinical skills, judgment and decision making strategies. Mingling and meeting is strongly encouraged.

We very much want to engage our regional partners and encourage all interested participants to spread the word at their sites.

PROGRAM

8:00-8:30	REGISTRATION AND BREAKFAST
8:30-9:25	How to manage DKA without the "headache" Jodi Rosner & Jasmin Moradi
9:25-10:20	High-Flow Nasal Cannula in Community Pediatrics: The Good, The Bad, and the Ugly Sarangan Uthayalingam & Ronish Gupta
10:20-10:50	Using your Safety Occurrence Reporting System to Drive Change in your Hospital Steven Arora
10:50-11:00	Spot Diagnosis Kelly Fitzpatrick
11:00-11:55	Approach to Infants Born of Mothers with Inadequate Prenatal Care Sarah Khan & Sandi Seigel
11:55-1:00	LUNCH
1:00-1:55	Epilepsy- Knowledge Networking. Delivering the right care, at the right time and place Suparna Sharma & Kevin Jones
1:55-2:25	The CALIPER Initiative Khosrow Adeli
2:25-2:45	COFFEE AND COOKIES
2:45-2:55	Spot Diagnosis Kelly Fitzpatrick
2:55-3:50	Peds-TECH: Pediatric Telemedicine Connecting Hospitals Rafi Setrak & Christopher Sulowski & Madan Roy
3:50-4:00	WRAP UP AND EVALUATION

PROGRAM OBJECTIVES

Upon completion of the conference, the participants should:

Comprehend McMaster's current DKA protocol and determine how this can be adapted to regional pediatric centers.

Be able to describe indications and contraindications for high-flow use on the pediatric wards and discuss how this could be implemented at tertiary and community sites.

Have developed an approach to a woman and her infant delivering with no prenatal care.

Have an awareness of the use of telemedicine to communicate between Emergency departments.

Be able to access and utilize the CALIPER tool to standardize pediatric laboratory reference ranges.

Recognize the importance of safety reporting and utilize SOR tools to improve patient care.

Appreciate and emphasize the efficiency, efficacy, and importance of regional communications.
